

Product Specification and Technical Data

PRODUCT: BG Ignition & Battery Terminal Sealer

PART NO.: 490

TEST DATA: Test	Typical Test Results
Specific Gravity (water = 1)	0.90
Boiling Point	110°C (230°F)
Flash Point, TCC	7°C (45°F)
Vapor Pressure (mmHg)	38
Solubility in Water	Negligible
AppearanceClear Spray
OdorAromatic Solvent Scent
Net Weight, oz. (grams)	12.75 (362)
Volume, fl. oz.	16.27

DESCRIPTION: BG Ignition & Battery Terminal Sealer restores cracked or damaged insulation on wiring. Completely seals and weatherproofs wiring and electrical connections. Prevents corrosion of battery terminals, cables and clamps. Insulates wiring from shorts — several coats will insulate bare wires. Protects chrome and metal surfaces. Colorless protection for decals, lettering, etc. Dries fast — will not accumulate dust or dirt.

USAGE: SHAKE WELL before using. Clean surfaces to be coated. Spray lightly until even coverage is obtained. Wait 5 minutes before starting engine.

BG Products, Inc. accepts no liability for excessive use or misuse of this product.
